5 Partnerships & Projects 18

This brochure gives an overview of the instruments the CEI utilises to meet its mission and boost sustainable development in its Member States.

Thanks to our funds, programmes, support to regional partnerships as well as design and management of projects funded by external sources, ranging from the European Union to the Autonomous Region of Friuli Venezia Giulia, we are implementing the goals of our Plan of Action 2021-2023 focused on promoting **green growth** and **just societies**.

This brochure shows in tangible terms what the CEI funds can bring to citizens, enterprises, organisations, institutions in CEI Member States enabling us to be faithful to our original commitment and be on the frontline of bridging Europe through regional cooperation.

CEI resources are allocated through calls for proposals as well as procurement procedures.

Through the CEI website and newsletter, you can receive additional information and updates!

We create new opportunities for cooperation and EU integration thanks to the transfer of innovative solutions and best practices and by building synergies and partnerships.

1 Develop & implement your ideas

- ▶ Do you enjoy working in collaborative and interactive projects with different players?
- ▶ What results can you expect?
- ▶ Are you an institution seeking funding for innovative ideas?
- ▶ Is your organisation interested in supporting pioneering processes?
- ▶ Is your organisation interested in exchanging best practices and experience?

Our funding opportunities may well help support you in implementing your plans. The more clearly you define your needs, the easier it is to identify the right funding and partnership opportunities!

5 Partnerships & Projects

The CEI-Executive Secretariat has developed and fostered a number of partnerships with regional organisations, institutions, professional associations and research, training and education providers. The scope of our partnership activities is diverse but mainly consists in the elaboration of joint actions meeting the goals of our Plan of Action.

Partnerships through CEI Funds and Programmes

The activities/projects covered by our Cooperation Fund in particular, as well as those under our Technical Cooperation Programme and Know-how Exchange Programme, often witness an excess of demand over available funds. In order to meet the requests of our Member States we are constantly looking for additional resources.

Partnerships through projects

We collaborate in the design, management and implementation of projects co-financed by the European Union under its sectoral, structural and external programmes and by the Autonomous Region of Friuli Venezia Giulia.

It is a multilateral, multilevel and multi stakeholder cooperation, entailing crossborder, interregional and transnational actions where the CEI either acts as lead partner or partner of a given project.

If you share our vision and wish to become a co-financing partner / donor or sponsor join our Network of Partners!

The CEI was established in 1989 right after the fall of the Berlin Wall to foster novel approaches to regional cooperation in Central, Eastern and South-Eastern Europe in response to the expressed needs of its stakeholders – the governments and its citizens combining multilateral diplomacy and a result-oriented cooperation.

- Regularly adapts each programme's objectives and strategies, allowing rapid response to changing needs.
- Coordinates with other regional organisations to avoid duplication and target unfunded/unmet gaps.
